

Attorney's Reference Number: 1130-005/ddh

2. Remarks.

Independent claims 1, 11 and 15 have been amended to incorporate limitations noted by the Examiner to be allowable. Specifically, claims 1 and 11 are amended to include the switch being configured for multiple illumination settings. Claim 15 now includes a limitation directed to the switch being accessible through a recessed portion. Applicant agrees with the Examiner that the combination of elements in these claims is not shown or suggested by the art.

New independent claim 21 also is allowable as it calls out structure not taught by the art, and specifically, a plurality of elongate branches with LEDs and a switch operable at multiple illumination settings.

Each of the independent claims is in condition for allowance. The dependent claims are allowable based on dependency.

Reconsideration and allowance of the application is requested.

Respectfully submitted,

Douglas D. Hancock
